Computer Networks Practical

Q-1 There is an organization A with multiple departments. Design a network for the HR department and the size of the department is 10 users. Also, show the communication between user number 1 and number 5 of the network.

Aim Objective - The objective is to establish connection between the 10 users with the help of wires and networking devices.

Steps

- 1) First place 10 PC and a switch.
- 2) Then connect them with copper wire
- 3) Connect switch with PC
- 4) Configure the IP to all PC
- 5) Check the connection by dropping a packet.

Q-2. There are two organizations in a city named GEU and GEHU, design a network between the SOC department of GEU and GEHU. Also show the communication between user number 1 of GEU and user number 2 of GEHU.

Ans      Steps

Step 1 - Create LAN-1 with 4 PC and create LAN2 with 4 PC's

Step 2 - Connect both LAN with router and configure the router

Step 3 - Sending PDU to check if connection is established.
